Hi Dr. Brown,

Here is the information you requested re: IRIS assessments and Chloroprene. Please me know if you need any additional information. Thanks!

Chris Robbins

For chemicals due up for IRIS assessments, please see attached

- Slide 2 lists the public multiyear agenda developed in 2015.
- Slide 3 is more granularly what is in the near-term pipeline. Slide 3 is not 'public' but we have been sharing with government agencies, when asked.
- In 2018, we plan to launch a process to validate and reaffirm the priorities for the multi-year agenda -- we will be engaging the states in this process too.
- I listed my contact information on the last slide, if Dr. Brown would like to have a follow up discussion.

As for Chloroprene:

- The process is progressing well, being managed by Office of Environmental Information (OEI). Denka has requested another meeting, which OEI has agreed to.
- Community stakeholders also sent a letter objecting to Denka request. That information was also provided to OEI. I have attached that objection package to this email, in case Dr. Brown was not aware.
- OMB is aware of this and is following closely.

Let me know if you need anything else.

Tina

Our mtg ends at noon. Would like it before then. Can one of your folks email it to me?

Thx
